

2012 RMMR Autocross Event Parking Map

Please take note as there are significant changes to the Autocross parking for 2012. All participants not in grid and all spectators should park in the Knoll Lot at the top of Mt Werner. There will be very limited, if any parking on road surrounding the Autocross Meadows Lot. Please park in the Knoll lot and walk down to the Autocross Event at the Meadows Lot.

If you are driving and working in the AM session—please grid your car for competition in the designated grid areas. There will be volunteers at the entrance of the grid to help you find the appropriate spot. All volunteers and participants in the autocross must sign a waiver and get an armband on their left wrist. PM session drivers may NOT park in the grid areas during the AM sessions. Likewise, AM session drivers and workers may NOT park in the grid area during the PM sessions. Please use the Knoll Lot for parking.

Current Session Workers:

If you are an AM-1 or PM-1 “worker”, working the autocross shift/session you may park along BangTail road for easy transition to your session. Note there is no parking at Condo, Residence, Business or other hotel parking lots near the Meadows Lot.
